

**TEKSAN  
INVERTER PORTABLE  
GENERATOR SERIES**

**TEKSAN**  
*mini*

# **TM3000IE**

## *Gasoline Generator*

**CLEAN ENERGY WITH  
STAGE V ENGINES**

**EASY AND  
SAFE USAGE**

**LOW EMISSIONS,  
HIGH EFFICIENCY**

**LUBE LEVEL  
INDICATOR**

**AUTOMATIC  
CIRCUIT BREAKER**

**BOTH DURABLE  
AND PRACTICAL**

# TM3000IE

## Inverter Portable Generator

|                     | SPECIFICATIONS                 | TEKSAN Mini INVERTER PORTABLE GENERATOR            |
|---------------------|--------------------------------|----------------------------------------------------|
|                     | Model                          | TM3000IE                                           |
| Output Power        | Starting Power                 | 3200W                                              |
|                     | Running Power                  | 3000W                                              |
| Engine              | Engine Type                    | 5.6HP, 4-Stroke, Single cylineder, OHV, Air cooled |
|                     | Displacement                   | 171cc                                              |
|                     | Maximum Power Output           | 3200W                                              |
|                     | Starting System                | Recoil + Electric Starting                         |
|                     | Fuel                           | Gasoline                                           |
|                     | Fuel Tank Capacity             | 6,8L                                               |
|                     | Fuel Consumption 25% (l/h)     | 0,77                                               |
|                     | Fuel Consumption 50% (l/h)     | 1,09                                               |
|                     | Fuel Consumption 75% (l/h)     | 1,46                                               |
|                     | Fuel Consumption 100% (l/h)    | 1,82                                               |
| Alternator          | AC Frequency                   | 50Hz                                               |
|                     | Rated AC Voltage               | 230V                                               |
|                     | Power Factor cosΦ              | 1                                                  |
|                     | Phase                          | Single-phase                                       |
| Configuration       | Electric Starting System       | ✓                                                  |
|                     | Fuel Meter                     | ✓                                                  |
|                     | Oil Warning System             | ✓                                                  |
|                     | Digital Display                | ✓                                                  |
|                     | 12VDC Output                   | ✓                                                  |
|                     | AC Circuit Breaker             | ✓                                                  |
|                     | 2-wheel transport kit          | ✓                                                  |
|                     | Automatic Decompression System | ✓                                                  |
| Dimensions & Weight | Box Dimensions (L x W x H)     | 675 × 480 × 490 mm                                 |
|                     | Dry Weight                     | 45,1 kg                                            |
